

FEDERICA FRUSCELLA

Federica Fruscella is an Italian independent artist, singer, composer and producer. Her creative world revolves around music, theatre, translation and a deep interest in psyche and folktales, finding its roots in a family tradition of storytelling.

Through the years, she has focused her musical research on unreleased melodies both from the Celtic world and the Mediterranean area. She moved to Ireland in September 2023 to pursue the instinct of breathing the air of the land she loves the most.

Her first album "Clonmacnoise" has been released on November 10th, and it is a homage to Celtic and Irish culture.

"I wish you could all dive into this album with the same purity and candour you used to dive into your Granny's Bed Stories with: through Primary Emotions." (Federica Fruscella).

CLONMACNOISE

CLONMACNOISE is the monastery and village, now an iconic historical site, located right in the centre of the Emerald Isle (Ireland). Around it revolve legends of apparitions of ghost ships and reincarnated saints bidding farewell to their friends. This unique and 'enchanted' place was the inspiration for Federica Fruscella's first album.
